Taller #10

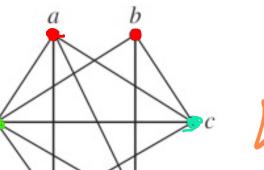

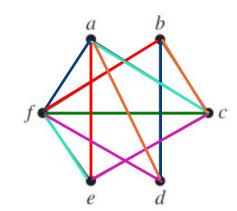

a,b

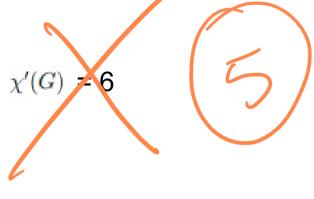

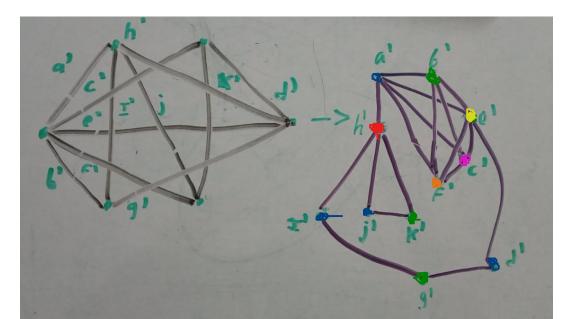

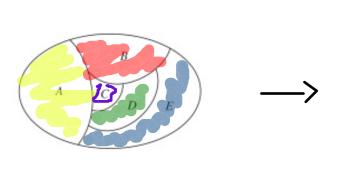

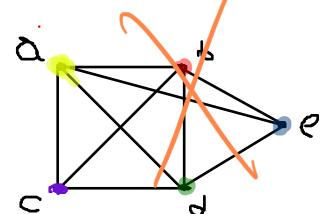

$$\chi^*(G)$$
. $\Rightarrow 6 = \chi'(G)$

Debido a que no se puede reducir la coloración en ningun caso, la coloración es óptima

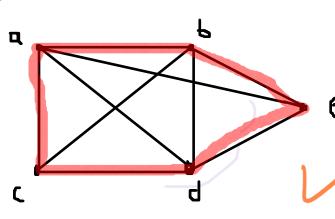

2)

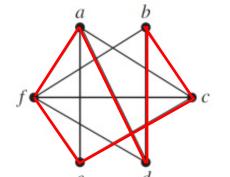

4 colores

3)

Sí es posible realizar el ciclo Hamiltoniano. Una opción seria: a-b-e-d-c-a

Sí es posible realizar el ciclo Hamiltoniano. Una opción seria: f,a,d,b,c,e,f
